GROWERS AND IMPORTERS OF FLOWER BULBS

Dear Friends and Customers:

The cost of printing and mailing catalogs and of shipping bulbs by parcel post has gone up every year, and has finally reached the point where these costs frequently exceed the value of the bulbs ordered.

In order to solve this problem and maintain the quality and size of bulbs we sell, we are mailing the enclosed price lists instead of our usual catalog. This seems to be the best way for us to continue to serve the home gardener as well as those who buy from us by the thousand.

The "GROWER'S PRICE LIST" shows wholesale prices per 100 (not post paid) of the varieties we have in large quantity. Retail prices for amounts less than 50 of one variety are found at the bottom of the page. Fifty may be bought for half of the 100 price.

Large orders from the "GROWER'S PRICE LIST" are shipped by Railway Express and you will pay the Express company for the shipping when your bulbs arrive. On smaller orders sent "not post paid", we mail the bulbs by Parcel Post and bill you for postage costs.

We sell only those varieties which have been field tested for several years and are of proven quality and reliability. Our guarantee of satisfaction remains the same, and we assure you that every order, large or small, receives the most careful attention. Our bulbs are State inspected in the field and at our warehouse. They are carefully examined again at shipping time.

Thank you for your business and trust in us.

Yours truly,

A large, flowing handwritten signature in cursive script that reads "Roger Dunwell".

P.S. SORRY no DAHLIAS this year. The grower who has supplied us for years had to retire due to poor health. We hope to have Dahlias again next year.
